

Wheel Rotation Formulae

$$\pi (2 \cdot r) = c$$

$$d/c = n$$

$$n \cdot 360 = ^\circ \text{ rotation}$$

$$\pi = 3.14159265$$

$$(2 \cdot r) = \text{Diameter}$$

$$r = \text{Radius}$$

$$c = \text{Circumference}$$

$$d = \text{Distance}$$

$$n = \text{Variable}$$

$$^\circ = \text{Degree}$$
